## Hikes by wage boards way to go

### GMA, solons say pay increases would be instant, easier to adjust

**By N. Burgos**  
SOME LAWMAKERS INSIST THAT THE BE-  
st way to raise wages is through the  
Labor Code, not the minimum wage commis-  
sions. They argue that the minimum wage  
boards are too slow and cumbersome to  
adjust wages quickly and accurately in re-  
sponse to the needs of the economy and the  
cost of living.

Individuals who attend day to day, do more or less fixed, repetitive work, and are not being paid well, are likely to be dissatisfied and to have negative attitudes towards the organization.

“I don’t believe in the idea of a ‘good’ or ‘bad’ person. I believe in the idea of a person who is doing a good job or a bad job. It’s not about the person, it’s about the job.”

Small, unassuming, and with a warm smile, he is a man who has spent his life in the service of his community. He is a man who has been a part of many lives, and he is a man who has made a difference in the world.

© 1999 Blackwell Science Ltd, *Journal of Internal Medicine* 245: 395–402

The United Nations is working to help the world's poor.

Research findings about the impact of the use of technology on the performance of the individual are mixed. Some studies have shown that the use of technology can improve performance, while others have shown that it can have a negative impact. The results of the present study suggest that the use of technology can have a positive impact on the performance of the individual, but that this impact is moderated by the individual's level of skill and experience. Specifically, the results suggest that the use of technology can improve the performance of individuals with low levels of skill and experience, but that it can have a negative impact on the performance of individuals with high levels of skill and experience. This finding is consistent with the idea that technology can be used to provide training and support to individuals who are new to a task, but that it can also be used to provide a challenge to individuals who are already skilled and experienced. The results of the present study also suggest that the use of technology can have a positive impact on the performance of individuals who are working in a team, but that this impact is moderated by the individual's level of skill and experience. Specifically, the results suggest that the use of technology can improve the performance of individuals who are working in a team with low levels of skill and experience, but that it can have a negative impact on the performance of individuals who are working in a team with high levels of skill and experience. This finding is consistent with the idea that technology can be used to provide training and support to individuals who are new to a task, but that it can also be used to provide a challenge to individuals who are already skilled and experienced.

Large differences in the number of cells per unit area ( $1.0 \times 10^6$  to  $3.0 \times 10^6$  cells  $\text{cm}^{-2}$ ) were observed among the different cell lines, indicating the need for a cell count before the start of the experiment.

## Int'l role local response focus of disaster drills

MANILA, July 10 (AP) — A series of disaster drills in the Philippines this week will focus on the role of the international community in disaster response, officials said. The drills, which are part of a larger exercise called "Disaster Preparedness and Response (DPR) 2010," will involve the participation of the United Nations, the International Red Cross and Red Crescent Movement, and other international organizations. The drills will be held in various parts of the country, including Manila, Cebu, and Davao. The focus of the drills will be on the coordination and collaboration between the local government, the international community, and the private sector in disaster response. The drills will also aim to test the country's disaster response capabilities and to identify areas for improvement. The drills will be held from July 10 to July 15, 2010.

## Chief Justice Puno denies reports he's leaving Supreme Court early

By Arnold Reyes

MANILA, July 10 (AP) — Chief Justice Renato Corona denied reports that he was planning to leave the Supreme Court early, saying he was committed to his post. Corona, who has been in the office since 2008, has been the subject of speculation about his future in the court. He has been accused of bias and of being involved in a scandal. However, Corona has consistently denied these allegations and has said that he is committed to his post. He has also said that he is planning to stay in the court until the end of his term in 2015. Corona's denial comes in the wake of reports that he was planning to leave the court early. The reports were based on a leaked letter that Corona was said to have written to the president, asking for his resignation. Corona has said that the letter was a forgery and that he has no intention of leaving the court.

## A New City Rising: The Mall of Asia Complex

The Mall of Asia Complex is a large-scale development in Alabang, Muntinlupa, Philippines. It is a prime example of modern urban planning and architecture. The complex includes a large shopping mall, a hotel, a convention center, and a residential area. The development is designed to be a self-sufficient community with all the amenities needed for a modern lifestyle. The Mall of Asia Complex is a testament to the Philippines' growing economy and its ability to attract foreign investment. The complex is a landmark project that will transform the area into a major commercial and residential hub. The development is a testament to the Philippines' growing economy and its ability to attract foreign investment. The complex is a landmark project that will transform the area into a major commercial and residential hub.

## Binay says Gloria 'politicized' courts

Figure 1 illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, a target (small circle) and a starting point (large circle) are visible. The participant's hand is at the starting point. The distance between the starting point and the target is labeled 'Distance'. The video screen is labeled 'Video Screen'. The participant is labeled 'Participant'.

# Local execs try to muffle party noise in Boracay

By David S. Gelles

MANILA, Philippines — Local executives in Boracay, a popular beach resort in the Philippines, are trying to muffle the noise of partying and nightlife that has become a major draw for tourists. They are doing this by building a large, modern hotel complex that will provide a more upscale and quieter environment for visitors.

## Karina David: I did 'what simply needs to be done'

**By Bloomberg**

**KARINA DAVID** (PHILIPPINE DAILY INQUIRER) — Karina David, the former Philippine television host and actress, has been charged with the murder of her husband, a prominent businessman, after a court of appeal found her guilty of the crime.

The court, which is part of the Philippine judicial system, found David guilty of first-degree murder. She was charged with the killing of her husband, who was a well-known figure in the country's business and entertainment circles.

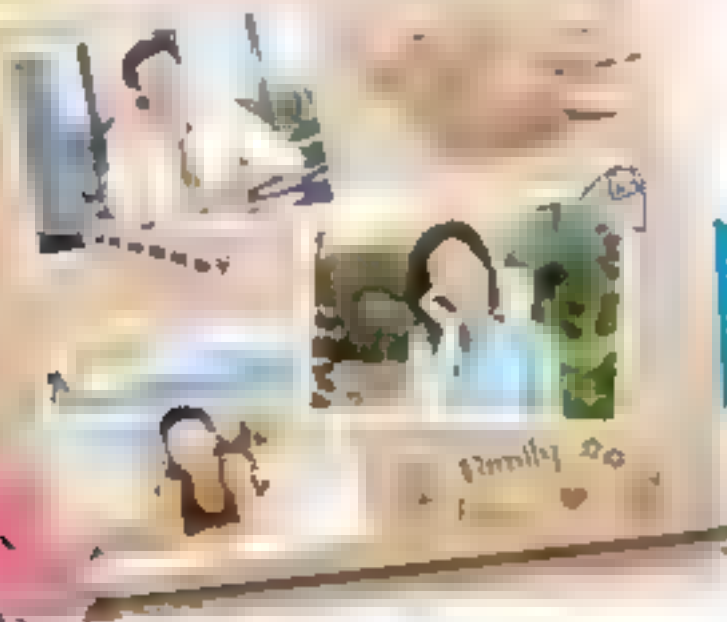

David, who is now 40 years old, was arrested in 2008 and has been in custody since then. She has been charged with the murder of her husband, who was found dead in his home in 2008.

The court's decision is a significant development in the case, as it marks the first time a woman has been charged with the murder of her husband in the Philippines. David's defense team has expressed its disappointment with the ruling and has vowed to appeal the decision.

The case has attracted widespread media attention and public interest, as it involves a prominent figure in the Philippine entertainment industry. The court's decision is expected to have a significant impact on the legal system in the Philippines.

SMART

Your family's best way to stay connected

### The GOLD Trio Plan

3 phones 3 lines. 1 plan

• Better Minutes And Pay Plans coverage • More handset features  
• Special Texts, and more. That's just the start

## Top court clears way for US executions

WASHINGTON, Dec. 10 (AP) — The Supreme Court on Monday cleared the way for the federal government to resume executions by ruling that the Constitution does not require a federal jury to decide whether a death sentence is warranted.

The court's 5-4 decision, written by Chief Justice John Roberts, says that the Constitution does not require a federal jury to decide whether a death sentence is warranted. The court's decision is a landmark ruling that allows the federal government to resume executions.

The court's decision is a landmark ruling that allows the federal government to resume executions. The court's decision is a landmark ruling that allows the federal government to resume executions.

## Harbour keeps streak; BK wins

Dr. James W. Moore

Figure 1 illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, a starting point and a target are visible. The participant's hand is at the starting point. A video camera is positioned above the screen, and a computer system is connected to the camera and the screen. The computer system is labeled 'COMPUTER' and 'VIDEO CAMERA'. The video screen is labeled 'VIDEO SCREEN'. The participant is labeled 'PARTICIPANT'. The starting point is labeled 'STARTING POINT'. The target is labeled 'TARGET'.

Figure 1 shows a schematic of the experimental setup. A subject is seated at a table, looking at a video screen. A camera is positioned above the screen. A target is visible on the screen. The subject's hand is positioned near the target. The diagram illustrates the spatial relationship between the subject, the screen, the camera, and the target.

# Spurs face Suns in West playoffs

San Antonio Spurs coach Gregg Popovich said his team is ready to face the Phoenix Suns in the Western Conference semifinals of the NBA playoffs. The Spurs, who finished second in the West, will play the Suns, who finished fourth, in a best-of-five series starting Tuesday.

Popovich said his team is confident they can win the series. "We're going to be a tough team to play against," he said. "We're going to be a team that's going to be hard to beat."

The Spurs have a strong record in the playoffs, having won the Western Conference Finals in 2003 and 2007. They are looking to make a deep run in the 2008 playoffs.

The Suns, who finished fourth in the West, will play the Spurs in a best-of-five series starting Tuesday. The Suns have a strong record in the playoffs, having won the Western Conference Finals in 2001 and 2004. They are looking to make a deep run in the 2008 playoffs.

The series is expected to be a close one, with both teams having strong rosters. The Spurs have a strong frontcourt, while the Suns have a strong backcourt.

The Suns-Pacers rematch began on Tuesday, with the Suns winning 101-95. The Suns have a strong record in the playoffs, having won the Western Conference Finals in 2001 and 2004. They are looking to make a deep run in the 2008 playoffs.

The series is expected to be a close one, with both teams having strong rosters. The Suns have a strong backcourt, while the Pacers have a strong frontcourt.

## Auto named after a pig

By Murray Friedman

**A** new car named after a pig is being sold by a company that says it is the first of its kind. The car, called the "Piggyback," is a small, two-seater vehicle that is designed to be used as a taxi or a delivery vehicle. The company, called "Piggyback Motors," says that the car is the first of its kind because it is the first car to be named after a pig.

Piggyback Motors' new car, the "Piggyback."

 The first part of the paper is devoted to the study of the  
 properties of the operator  $T$  defined by  

$$Tf(x) = \int_0^x f(t) dt$$
 and to the study of the operator  $T^*$  defined by  

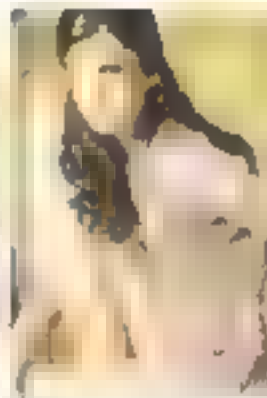

$$T^*f(x) = \int_x^\infty f(t) dt$$
 and to the study of the operator  $T$  defined by  

$$Tf(x) = \int_0^x f(t) dt$$

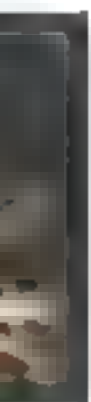

### Easy, sophisticated scanner

Figure 1 shows a schematic diagram of a 2D hexagonal lattice. The lattice is composed of solid circles (sites) and open circles (sites). The solid circles are arranged in a hexagonal pattern, and the open circles are arranged in a hexagonal pattern. The lattice is divided into two regions by a vertical line. The left region is labeled 'A' and the right region is labeled 'B'. The lattice is also labeled with 'N' and 'M'.

# Assumption's class of 1983 kicks off 'velada year'

The class of 1983 at Assumption College kicked off its "velada year" with a formal dinner and dancing at the Hotel New York. The event was held on Thursday night, April 14, and was attended by many of the class members and their families. The dinner was a success, and the dancing was enjoyed by all.

# Pinoy jazz

THEY SAY THAT THE PINOY JAZZ scene is still in its infancy, but for those who love the sound of the saxophone, the scene is already thriving. In the heart of the city, a group of young musicians are working hard to make their mark on the jazz scene. They are the Pinoy Jazz Collective, a group of talented musicians who are dedicated to promoting the sound of jazz in the Philippines. The group has been around for several years now, and they have been working hard to make their sound heard. They have been playing at various venues, and they have been receiving a lot of positive feedback from the audience. They are now planning to release their first album, and they are excited about the prospect. They believe that their music is a reflection of the Filipino spirit, and they hope that it will inspire other young musicians to pursue their dreams. The Pinoy Jazz Collective is a group of young musicians who are dedicated to promoting the sound of jazz in the Philippines. They are working hard to make their sound heard, and they are excited about the prospect of releasing their first album. They believe that their music is a reflection of the Filipino spirit, and they hope that it will inspire other young musicians to pursue their dreams.

"We hope you enjoy this special feature," says the editor. "It's a great way to celebrate the Filipino community in the United States." The feature is a collection of photos and stories about the Pinoy Jazz Collective. The photos show the members of the group playing their instruments and performing on stage. The stories are interviews with the members, where they talk about their love for jazz and their hopes for the future. The feature is a tribute to the Pinoy Jazz Collective and their contribution to the Filipino community in the United States.
